

Maine Traditions

HARDWOOD FLOORING

Crafted in the Northeast, By Your Friends and Neighbors.

Kennebec Lumber provides lumber for the Maine Traditions brand of traditional solid hardwood flooring – prefinished and unfinished.

Kennebec Lumber Company takes special pride in offering the finest genuine hardwood floors available for sale within the Maine Traditions brand. Continually, Kennebec Lumber strives to produce hardwood flooring that maintains old world craftsmanship while embracing technologies that allow for the innovation of hardwood products.

Kennebec Lumber has been owned and operated for three generations by a family that has made a commitment to providing environmentally sustainable products and unparalleled quality. It is this commitment that drives the company to this day. From its founding in woods of Maine, Kennebec Lumber has been a company that sets only the highest of bars for sustainability, service, and quality.

Premier Hardwood also provides a portion of the lumber for the Maine Traditions brand of traditional solid hardwood flooring – prefinished and unfinished. The addition of Premier Hardwoods to the Maine Traditions brand in 2019 created a broader depth of product for the brand; bringing more species and availability to Maine Traditions.

Premier Hardwood, also owned and operated by three generations of a family with deep roots in the lumber industry, brings the same adherence to excellence that Kennebec Lumber Company began Maine Traditions with.

Together, Kennebec Lumber and Premier Hardwood provide for Maine Traditions a high standard of excellence, generationally sustainable harvesting practices, and a commitment to lasting products designed and built by the people of a region rich in the lumber harvesting industry of the Northeastern United States.

The map displays the state of Maine and its surrounding regions. To the west is New Brunswick (N.B.) and to the east is Prince Edward Island (P.E.I.). To the south are New Hampshire (N.H.), Massachusetts (MASS.), Connecticut (CONN.), Rhode Island (R.I.), New Jersey (N.J.), Delaware (DEL.), Maryland (MD.), Virginia (VA.), West Virginia (W.V.A.), Kentucky (KY.), Tennessee (TENN.), and Indiana (IND.). To the southwest is Ohio (OHIO) and to the west is Michigan (MICH.). Major cities labeled include Toronto, Kingston, Ottawa, Quebec, Fredericton, Moncton, Halifax, Concord, Albany, Bridgeport, New York, Harrisburg, Washington, Richmond, Dayton, Louisville, Fort Wayne, Lansing, Detroit, Cleveland, Pittsburgh, and Temiskaming Shores. The map also shows the Great Lakes and the Atlantic Ocean. The title 'MAINE TRADITIONS' is prominently displayed in the center, with the subtitle 'LUMBER HARVESTING REGION' below it. The coordinates 41.846 N / -75.055 W are provided at the bottom.

The Maine Traditions finish line is managed by experienced finish trades people that are well trained to make prefinished hardwood that meets even the slightest of tolerances.

3

THE RANGELEY COLLECTION

For the Maine Traditions Rangeley Collection, we have employed the centuries-old live-sawing technique to produce solid Red Oak flooring with distinctive style and exceptional character for today's homes. Live-sawing is actually the oldest, most traditional method of cutting lumber, but its popularity waned in North America as much as a century ago. Now, Maine Traditions has adapted this time-tested sawing technique to create our Rangeley Collection of four Red Oak floors. The Rangeley Collection is offered in rugged, substantial 5" wide tongue & groove boards, wirebrushed and finished with your choice of seven stains or clear matte UV finish.

Rather than repeatedly turning logs in the sawmill to maximize yield, the rough lumber used to create the Rangeley Collection is parallel cut in the traditional "live-sawn" style used in past centuries. In simple terms, when we live-saw a log, we start at the top, and work our way down. This results in a natural mix of boards – plain sawn first, then rift sawn, and finally quarter sawn boards nearest the middle of the log.

The live-sawn method incorporates all of the natural character of the tree from which it was cut – showcasing the full spectrum of red oak's color and grain variations, including knots, checks, pith and intriguing mineral streaks.

Live-Sawn Red Oak Floors in the Maine Traditions Rangeley Collection offer lots of character. In fact, they are far from blandly consistent. So these handsome floors lend themselves to casual, livable homes, old house restorations and many contemporary homes, as well as other applications that call for a truly distinctive look.

THE CAMDEN COLLECTION

Introducing the exciting new Camden Collection of engineered White Oak floors. Produced in impressive 7½” wide planks and lightly wirebrushed, this new collection includes several floors that are also finished with a subtle, yet distinctive whitewash. Inspired by New England coastal living, the floors in the Camden Collection are perfect for open, contemporary homes and are sure to enhance their owners’ casual lifestyles.

As with all Maine Traditions prefinished hardwood floors, these Camden Collection floors are covered by our 50 year limited warranty for residential use. Ask your retailer or see our website for details: www.mainetraditionsflooring.com

WHY YOU SHOULD CHOOSE MAINE TRADITIONS HARDWOOD

- All of our solid pre-finished floors are ¾” thick for the greatest strength, dimensional stability and durability.
- Engineered floors in our Camden Collections are manufactured in full half-inch thickness, and utilize the finest birch ply backers, high-tech adhesives and best sawn-face veneers available.
- Responsibly grown, harvested and manufactured in USA. Qualifies for LEED credits. Complies with CARB Phase II.
- Logs sustainably harvested from one region to provide consistent color, grain and overall quality, year-to-year.
- State-of-the-art milling, finishing and quality control operations adhere to the strictest of standards, and are painstakingly documented.
- Nano PLUS™ high-tech UV-cured polyurethane finish for durability and beauty. Medium-low-gloss finish for the Classic Collection, low-gloss matte finish for Camden and Rangeley Collections.
- 50-year residential limited warranty. 5-year light commercial warranty. See our website or ask your retailer for details, restrictions.
- Prefinished moldings are available for all species, grades and stains. Ask your retailer for ordering information.

THE CLASSIC COLLECTION

Our Classic Collection includes solid hardwood floors in six native species, in a variety of widths, stains and finishes. You'll find over two dozen of the Classics here!

Solid red oak, yellow birch, hickory, cherry, red birch and hard maple floors, with a number of stain options, as well as clear. All feature the medium-low gloss finish one might expect in a "classic" hardwood floor.

All Maine Traditions prefinished floors are covered by our 50 year limited warranty for residential use. Ask your retailer, or see our website for details: www.mainetraditionsflooring.com

MAINE TRADITIONS HARDWOOD GRADES

Premium Grade: This grade shows all the modern clean, clear attributes of the very best hardwood, with minimal color and grain variations. During the production process the Premium grade is selected by eliminating boards with character or darker heartwood, producing a grade that shows only an occasional mineral streak or pin knot, which are minimized to ensure the quality you expect with a premium floor.

Coastal Grade: Our Coastal grade provides a great option for those looking for intriguing color contrasts, character, natural mineral streaks, and varying grain patterns. Coastal grade is often chosen just to provide diversity in the appearance of the hardwood floor. It's also a very popular grade for those wanting to pull colors together in a room, from the walls through the furniture and floor coverings. The varying colors and grain patterns found in each hardwood species are brought to life in this proprietary grade.

Antique Grade: The Antique grade is reserved for the species with the most spectacular color and grain appearance – Red Birch and American Cherry. A grade unique to Maine Traditions, our Antique grade is produced by using the entire run of lumber, combining our Premium and Coastal grades together in each carton. This blending of grades allows the true flavor of the hardwood to come out, with very rich color and grain contrast.

Natural Grade: Utilizing the entire run of Hickory, we produce this grade to promote better length. Natural Grade exhibits some color variation, with solid character. Includes all clear sapwood, developing heart-wood, a few solid knots up to ½", with voids up to ¼" filled.

Live-Sawn: A true mix of grades, our live-sawn red oak includes plain-sawn, rift-sawn and quarter-sawn lumber, incorporating all of the natural character of the tree from which it was cut. Showcases the full spectrum of red oak's color and grain variations, including knots, checks, pith and intriguing mineral streaks. Offers better than average board length.

Coastal

Red Oak
Premium

Red Oak
Coastal

Swatches illustrate the difference between our Premium and Coastal grades in Hard Maple and Red Oak. Our Premium grade's minimal grain and color variations are evident. However, many homeowners prefer the more diverse grain and color inherent in Coastal grade. Although our grading standards are more stringent than most in the industry, hardwood is a natural product, and every carton will vary somewhat.

CLASSIC COLLECTION – SOLID ¾" HARDWOOD FLOORING

Note: ¾" solid hardwood is recommended only for installations at or above grade. Consider our engineered flooring options for below-grade installations (basements).
